popular christianity has lost sight of its roots and the teaching of its founders this book returns to those roots and those teachings through the eyes of the scriptures themselves under the influence of the greeks and later the romans the church sought more and more to distance itself from its jewish roots and the teachings of its founder the messiah himself the modern church speaks of three gods in one the scriptures speak of one god only the modern church speaks of the god man messiah the scriptures know the man only born again christians speak of being so while in the flesh the scriptures speak of being born again into new spiritual bodies at messiah s return baptists preach baptism in water the scriptures preach baptism in the spirit the gospel of the kingdom of god that messiah preached has been replaced with a gospel of grace that ignores that kingdom what becomes of the dead what does it mean to be dead does anyone ever really go to a hell of fire and pitchforks who is god who is christ the scriptures answering all these questions are presented in full within the body of the text timothy james is the author of the god that time forgot returning to the god of the scriptures god s hold days and the life death and return of the messiah and the power of believing accessing the power of god in your daily life

since childhood you ve sung the words jesus loves me this i know the tune is as familiar as your own mirrored reflection but sometimes we have difficulty believe that the creator and sustainer of the universe could be bothered with people like you and me much less really love us but when god put on flesh and entered our world he washed dirty feet he soothed suffering souls and he forgave fallen sinners his message is loud and clear he loves us jim mcguiggan s passionate devotional readings draws you beyond the commands the laws and the history and paint and insightful portraits of god that reveal his tender heart of love

the core of this book is a systematic treatment of the historic transformation of the west from monarchy to democracy revisionist in nature it reaches the conclusion that monarchy is a lesser evil than democracy but outlines deficiencies in both its methodology is axiomatic deductive allowing the writer to derive economic and sociological theorems and then apply them to interpret historical events a compelling chapter on time preference describes the progress of civilization as lowering time preferences as capital structure is built and explains how the interaction between people can lower time all around with interesting parallels to the ricardian law of association by focusing on this transformation the author is able to interpret many historical phenomena such as rising levels of crime degeneration of standards of conduct and morality and the growth of the mega state in underscoring the deficiencies of both monarchy and democracy the author demonstrates how these systems are both inferior to a natural order based on private property hoppe deconstructs the classical liberal belief in the possibility of limited government and calls for an alignment of conservatism and

libertarianism as natural allies with common goals he defends the proper role of the production of defense as undertaken by insurance companies on a free market and describes the emergence of private law among competing insurers having established a natural order as superior on utilitarian grounds the author goes on to assess the prospects for achieving a natural order informed by his analysis of the deficiencies of social democracy and armed with the social theory of legitimation he foresees secession as the likely future of the us and europe resulting in a multitude of region and city states this book complements the author s previous work defending the ethics of private property and natural order democracy the god that failed will be of interest to scholars and students of history political economy and political philosophy

fire is one of the four major elements known to exist on earth others include air water and dust however fire occupies the most significant position among the rest from the perspective of sacred religious worship where it is believed to represent the presence of god also because of the critical role that fire plays in the area of spiritual warfare anyone who desires access to supernatural power must have a deep understanding of the characteristics of fire and its symbolism and be spiritually baptized by fire baptism by godly fire endows children of god with supernatural authority and enables them to do exploits for him so this baptism by fire is a privilege and great blessing to the body of christ the contemporary church needs believers like mooses and elijah whose hearts burned with this spiritual fire it distinguishes a believer for service in the kingdom where god the supreme judge that is a consuming fire is also the god of mercy and grace who saves the penitent this is a mystery that this book tries to unravel

r t kendall is a dear friend with a deep love for the gospel and the ministry his words are worth reading and taking to heart ed stetzer author and president of lifeway research presenting a collection of sixteen sermons preached in england a few years ago the god of the bible offers an exposition of scripture centering on god in both the new and old testaments of the bible with the goal of helping others grasp more deeply who god is who jesus is and who we may become in his family kendall s messages seek to help you increase your faith and enhance your theological knowledge as well as knowledge of god and his son jesus christ these explorations answer a host of questions related to today s christianity who is jesus how can we introduce others to him how does god reveal himself how does he warn and redeem what is our status in his family what is our security how can we have faith that sets us free the god of the bible communicates that god is real and faithful the same yesterday today and forever

god is often misunderstood or dismissed in this secular age god what s that is the essential translation guide for open skeptics inquiring seekers doubting believers and teachers of faith who find themselves in a godless world this book steps away from the current polarized debates and simplistic caricatures to invite readers on a journey that

will translate and rediscover the most profound idea about reality and truth that has shaped history god this journey will explore questions like what if god pointed not to some remote entity but reality all around us what if this reality speaks to people through truth experience and even their innermost thoughts what if there is a moral character to this reality a goodness that speaks in face of evil embark on this journey toward that border between the godless world and the world that god speaks which will shed a new light on faith and reality

the god that answers by fire is the one that responds by a mighty and strong hand my good loving gracious and merciful god is also a consuming fire and a god of judgment but it is not always that his answering by fire is in response to divine judgment many times he answers by fire to show himself strong among men and to demonstrate his great power and ability when the almighty god brought blindness upon elymas the sorcerer who wanted to turn the proconsul away from the faith because apostle paul his representative spoke on his behalf he was answering by fire when jesus christ brought back lazarus from the dead god answered by fire

god is love it s the most basic definition of god in scriptures but so profound that it s often misunderstood in this probing book a brilliant bible expositor brings us into the very heart of god by answering such questions as if god is love how could he send anyone to hell what s the difference between the loving god of the new testament and the angry god of the old testament if god is love why did he require his son to die such a cruel death on the cross how can god be both loving and jealous the author argues against the two polar views of god as a sentimental grandfather whose doting love could not bring him to punishment of the disobedient and god as an angry tyrant who would rule by threats both extremes paint a distorted picture of god and further confuse the issue of understanding god s love dr macarthur writes he insists that what god loves is actually defined by what he hates and that neither his love nor his wrath can be understood in isolation from the other although the author is clearly aware of the way great men have grappled with these issues in the history of the church his doctrinal presentations arise more from the biblical text than from dogmatic theology he examines in detail the way john the apostle of love treats love in his first epistle then fleshes out the doctrine of god s love in vivid representations of real people interacting with divine love

if there s anything you believe about god that doesn t look like jesus you re missing something the god we find in scripture often appears to be a mysterious contradiction we find ourselves asking who is god really is he compassionate and merciful or angry and punitive gradually we begin to create a version of god who aligns more with our own image than with the image of his son jesus in the rorschach god author matthew hester takes believers on an eye opening exploration to uncover the true image of god

found in the person of jesus christ this book will challenge you to move beyond your personal projections of god dismantle false images of who god is find the god of compassion and mercy as revealed through jesus christ and reconcile the god of the old testament with the god of the new covenant the god you see may not be the god who is and the god who is wants more for you than just knowledge he wants intimacy

it can no longer be assumed that most people or even most christians have a basic understanding of the bible many don't know the difference between the old and new testament and even the more well known biblical figures are often misunderstood it is getting harder to talk about jesus accurately and compellingly because listeners have no proper context with which to understand god's story of redemption in this basic introduction to faith d a carson takes seekers new christians and small groups through the big story of scripture he helps readers to know what they believe and why they believe it the companion leader's guide helps evangelistic study groups small groups and sunday school classes make the best use of this book in group settings

if god is all knowing and all powerful can he in any way be vulnerable to his creation can god be in control of anything at all if he is not constantly in control of everything john sanders says yes to both of these questions in the god who risks he mounts a careful and challenging argument for positive answers to both of these profound theological questions in this thoroughly revised edition sanders clarifies his position and responds to his critics his book will not only contribute to serious ongoing theological discussion but will enlighten pastors and laypersons who struggle with questions about suffering evil and human free will

this is a book about god not just any god but the god that created adam and eve the god of abraham the god of the jews the god of the christians and the god of islam without a doubt the most influential figure in the history of human civilization but what do we really know about him who is he where did he come from what does he look like what sort of character does he have what if anything does he eat does he have a family in what ways can he be said to even exist at all alexander waugh has been asking questions like these for as long as he can remember now having drawn from an enormous range of sources from the sacred books of the torah the christian new testament and the islamic qur'an from the greek apocrypha and the ancient texts of nag hammadi to the dead sea scrolls he has sought out the answers using material gleaned from the diverse writings of saints rabbis historians prophets atheists poets and mystics he has molded his findings into a singular striking biographical portrait of god erudite perceptive and entertaining god reveals many startling and unexpected characteristics of the divine being from the simple stories of genesis and job explored from god's own viewpoint to the prophecies of muhammad and sybil and the intricate philosophies of newton and nietzsche alexander waugh has left no stone unturned in his
